

SKOOTIES

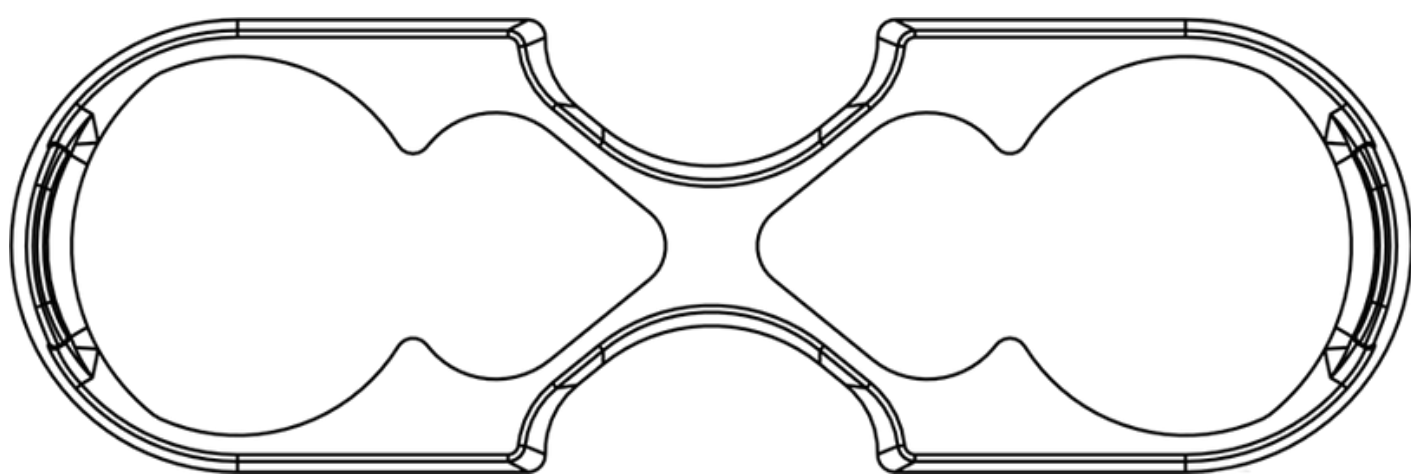

roller skate wheel locker

skateskooties.com | 720-773-0079 | grrlgonzo@skateskooties.com

A new product for your roller skaters!

Skooties are a roller skate wheel locker, designed for easy-on, easy-off use. This allows a skater to "walk" over uneven surfaces without needing to remove their skates.

Skooties Patent-Pending Design:

Skooties create walkable stability with these five key features:

- "X"-shaped wheel chocks prevent wheel rotation
- Exterior tread bands for traction
- Inside edge tabs allow for easy-on, easy-off use
- Anti-slip edges and inside bands hold Skooties in place
- Made of tear-resistant silicone for maximum durability

Our Business Philosophy...

Skate shops, derby teams and rinks are the foundations of the roller skate community. We believe in supporting our local skate shops. That is why we don't sell retail Skooties online. All Skooties are sold exclusively through local retailers like you.

We build our business by helping you build yours.
